

Does your CAGE meet the 2007 Track and Field Rules Change from NFHS?

RULE: The throwing sector of **34.92 degrees** is now required for the shot put and discus events.

M-F ATHLETIC HAS 3 SOLUTIONS

1. **Your existing cage MAY be capable of meeting this rule**, simply by moving the posts to proper position for the new 34.92-degree sector.
2. **CONVERSION KIT** - the kit converts installed high school cages with a 60-degree or 45-degree sector to an extended cage compatible with the 34.92-degree sector. The kit consists of two additional steel poles with ground sleeves and two 8' x 14' extension nets.
3. **NEED A NEW CAGE? CHOOSE OUR HIGH SCHOOL DISCUS CAGE – Great Value!**

This Cage conforms to the 34.92 degree throwing sector rule.

Quick set-up time.

Six 2 3/8" round zinc plated steel poles with ground sleeves.

16" cantilever so netting hangs inside of cage to protect implement and thrower.

Pulley on each post for easily raising and lowering net.

Net bottom attaches to poles with Velcro, which is provided with this cage.

10'4" high when installed.
