

**GOLF HOUSE KENTUCKY
TOURNAMENT OPERATIONS PROTOCOL
*COVID-19 RELATED GUIDELINES***

The following protocols are approved by the Golf House Kentucky Board of Directors for the 2020 season as precautionary measures related to the COVID-19 pandemic. These protocols are designed in a responsible manner for all players, volunteers, host facility staff, and Golf House Kentucky staff. They are devised per the guidelines and recommendations outlined by the CDC and State Health officials and are subject to change.

Golf tournaments will not be conducted until Phase 2 of the re-open plans established by Kentucky State Health officials, which is consistent with national CDC guidelines. The Allied Golf Association’s “Back2Golf” (approved by the CDC) also serves as a reference tool in determination of when to begin our tournament programs.

These protocols will be executed consistently across all tournaments conducted by organizations in the family of Kentucky golf: Kentucky Golf Association, Kentucky PGA, Kentucky PGA Junior Tour, and Kentucky Golf Foundation. Executing these protocols consistently across the organizations is a responsible effort to eliminate doubt as to procedural actions while on site at an event. Any health concern not addressed in the protocols will be decided in a responsible manner.

We anticipate minor adjustments and modifications in operational execution will be necessary as facility accommodations are different. Again, the priority for each event is to be responsible in our efforts to follow CDC guidelines.

PERSONAL PROTECTIVE EQUIPMENT (PPE) and OTHER SUPPLIES

- All tournament staff (GHK staff, rules officials, volunteers) are required to wear a mask in any situation where they interact with or are near others and when handling items that others may come in contact with during their tournament experience. Gloves must be worn when handling items that others may come in contact with during their tournament experience.
 - Masks will be supplied to the tournament staff by Golf House Kentucky.
- Tournament participants will be encouraged to bring their own masks and wear them when interacting with tournament staff and other individuals. Golf House Kentucky will NOT provide masks to tournament participants.
- Hand sanitizer and/or sanitation wipes will be available at the following locations:
 - Practice Tee
 - Practice Putting Green
 - Starting Tent
 - Scoring Area
 - All Tournament Staff Golf Cars
- Additional trash cans will be placed in strategic locations for disposal of sanitation wipes
- Bottled water will be available to players and distributed by tournament staff (wearing gloves)
 - Players will receive two bottles of water in their golf car and have the option to receive two bottles of water on the 10th tee. If players need additional water, they may contact a tournament staff member and water will be brought to the player immediately.
- Food will not be provided as part of the event. Facilities may offer food separate from the tournament provided it is offered in compliance with CDC and Kentucky Health Department guidelines and regulations.
- Tournament staff and players will have their temperature taken by a touchless thermometer upon arrival at the facility or before the start of their round.
 - Any player experiencing a temperature above 100.4 F and/or exhibiting symptoms that are consistent with COVID-19 is not permitted to participate in a GHK event. Any player exhibiting any symptoms is encouraged to seek medical attention and doctor's recommendation as to a return to play.
 - Any player diagnosed with COVID-19, or that has a family member they have come in contact with that has been diagnosed with COVID-19, is not permitted to participate in any GHK event for 30 days following a diagnosis, regardless of symptoms, and must present a note from a doctor clearing them to participate to the GHK Board.
 - Any player found in violation of the above policies or found to have purposely hidden or not disclosed symptoms or diagnosis, will be banned from the GHK for a length to be determined by the GHK Board.

REGISTRATION

- Player registration will not occur on site and players are expected to be on the tee 10 minutes prior to their assigned starting time for the round.
- Player gifts, if provided for an event, will be pre-packaged by GHK staff prior to the event and distributed at the scoring area following the round.
 - Any player withdrawing from an event will be provided their gift before leaving or sent following the event.
- Skins games will not be promoted or encouraged

PRACTICE AREAS

- Participants are not permitted to arrive at the host facility more than 45 minutes prior to their starting time. If a player arrives at the facility prior to 45 minutes of their starting time, they must remain in their vehicle.
- Practice areas are only available to participants **45 minutes prior** to their tee time.
 - Following our 15 minute tee time intervals (groups of 4), this will limit the practice areas to no more than two groups (maximum of 8 players) at a time.
 - Players will be restricted to warming up at every other station on the practice tee (minimum 6 feet apart)
- Tournament staff will monitor the practice areas to ensure compliance of the 45 minute time allotment.
- All practice facilities are closed the remainder of the day to tournament participants following the conclusion of their round.
- Players should leave the facility upon completion of their round. Exception: if following the final round of the event, a player is in contention for first place, they will be permitted to remain on property. If they fall out of contention prior to completion of the championship, they should leave the premises at that time.

STARTING PROCEDURES

- Tee time events only, no shotgun events until we enter Phase 3 (or approvals by State Health Departments)
- Groups of 3 players: minimum of 12 minutes between tee time
- Groups of 4 players: minimum of 15 minutes between tee times
- The starting area is to be marked/roped off and posted with a sign restricting the area to the Starter and ONLY the players receiving instructions/teeing off.
 - NOTE: the first teeing area is not a part of and is outside the starting area
- Spots will be marked on the ground in the starting area for players to stand to maintain spacing while receiving instructions and other materials.
- Exchanging of cards will not be necessary given the way information will be distributed (players will not be assigned their own cards).
- Tournament information will also be available online and players may print documents from their home and bring with them. Players may also take photos of the tournament documents and refer to them during their round.
- A starter's box is viewed as a common area and players will not be allowed to access items normally located in a starter's box.

ON THE COURSE

- All players must play by the current USGA Rules of Golf and GHK Conditions of Competition.
- Caddies are not permitted.
 - The KPGA Junior Tour has implemented a separate policy for caddies. Please refer to the KPGA Junior Tour policies prior to attending their event.
- Players should follow proper social distancing protocol and stay at least six feet away from other competitors, partners, and other individuals while on property.
- Prior to or following a round, players should refrain from shaking another player's hand or contact of any kind with another individual.
- Players should not touch another player's equipment.
- If golf car use is permitted, it is under the single rider policy in which one competitor will be allowed to drive the golf car throughout the competition.
 - If a player walking is to place their golf bag on the car, that individual must walk the entire round. They will not be permitted to ride or drive the golf car at any point.
- All cups will be placed in the ground for competition rounds per USGA Rules of Golf to allow the ball to properly drop in the hole. During play of a hole, a player must not remove the flagstick from the hole. Penalty for first violation: 1 stroke; Penalty for second violation: General penalty; Penalty for third violation: Disqualification. The flagstick has been removed from the hole when it is lifted by a player, his or her partner, or caddy, or any other person at the request of the player by any method resulting in the bottom of the flagstick no longer being in contact with the socket of the hole liner. A player may reposition the flagstick without removing it from the hole by touching it with a towel or club.
- All bunker rakes will be removed for the entire competition. A local rule will be in place allowing competitors (whose ball lays in a bunker) to lift the ball, clean the ball, smooth the sand, and replace the ball within 1 club length no closer to the hole within the bunker. This will be at no penalty to the player. Please smooth footprints following play from the bunker.
- All individuals must maintain recommended social distancing when assisting players with ball searches, directional messaging and all other possible interaction points.
- Rules Officials must maintain recommended social distancing when assisting players with rules assistance. They must not assist the players with any situation where the official would deliberately need to touch either personal equipment of the player or golf course equipment.

SCORING PROCEDURE

- Players will utilize the Golf Genius scoring application for posting hole by hole scores during each competition round.
- One player will be designated by a GHK tournament official to digitally post all players' scores in their pairing group.
- All players will be assigned a paper scorecard (official scorecard) and their designated marker will populate the scorecard for each hole played. Since the scorecard will be assigned, exchanging of the scorecards is not necessary.
- Once the round is complete, players will be assisted by an official scorekeeper to verify all hole by hole scores are correct. The scorekeeper will be in a separate and safe space (GHK Scoring Tent). The scoring area is for players and officials only.
 - The scoring table will not have a cloth, and all players will be positioned at an acceptable social distance from each other.
- Once all scores have been reported and verified by players and the scorer, each player will twice sign the scorecard in their possession – once on the “Scorer” line and once on the “Attest” line of the same scorecard.
 - The signature on the “Scorer” line is standard, and the signature on the “Attest” line will signify that the player signing approves his or her own score that was read aloud and verified by the scorer, the player and the scoring official.
 - This process will ensure that every player has signed twice – once as a scorer and once to attest their own score – without having to exchange scorecards
- The scorecard will then be placed in a box by the marker. These scorecards will be collected at the end of the competition round and kept for review if necessary.
- Players must remain in the designated scoring area until verification is complete. When the player leaves the scoring area, the score for that player is official. The player may not return to the scoring area once he/she has departed.
- Digital leaderboards may be placed at the scoring area (streamed through facility TVs when applicable). Players must follow CDC social distance guidelines when viewing digital leaderboards.

AWARDS PRESENTATION

- All award presentations will be conducted immediately following conclusion of the tournament at a location near the 18th hole.
 - If the tournament has multiple divisions, division awards will be presented immediately following conclusion of that division's competition.
 - Following the awards presentation for that division, players of that division should depart the premises.
- The Official in Charge will wear proper PPE, sanitize the awards, and lay them out in an organized fashion on the awards table.
- The award ceremony will be conducted by the Official in Charge and include recognition of sponsor(s), host facility staff, and champion(s). When a player's name is announced, they will proceed to the awards table and accept their respective award.
- Photos will be taken following conclusion of the awards presentation and will be taken individually.

INCLEMENT WEATHER & COURSE EVACUATION

- Every effort will be made to provide advance notice of inclement weather systems approaching the tournament site for players to return to the clubhouse. If a suspension of play is announced, players are strongly encouraged to return to the clubhouse or designated safety area. However, we all know storms can pop-up quickly during summer months. In the event the facility has on-course safety shelters, players will be reminded that while congregating in these areas, they must follow CDC guidelines (social distancing) and avoid congregating groups of more than 50. The shelter may not provide adequate space for players to maintain CDC guidelines, thus the reason for returning to the clubhouse. Designated shelter areas will be provided to players prior to their round.
- Players must follow the prescribed procedure as outlined in the USGA Rules of Golf, Rule 5.7b, when play is suspended for a dangerous weather situation such as lightning.
- All golf car use policies remain in effect during this procedure, including individual rider policies. Therefore, players that have chosen to walk the course during the round of play, must walk to the designated safety area.
- The Official in Charge will use the current policy when determining the need to suspend play. The current three phase system is in effect but modified in the following way:
 - When a dangerous weather system is encroaching on the event site, a minimum of 15 miles is used to determine when suspension of play will be signaled (current policy is 10 miles).
 - The Official in Charge may increase the minimum mile requirement based on variable conditions that may affect the weather system and the removal of players from the course; including wind speed, rain amount forecasts, size of golf course (acreage of property), and field size of players on the golf course.
- All precautions must be taken to adhere to the current social distancing guidelines including clubhouse capacity, use of personal vehicles during delays, alternate buildings on property, etc.
- Resumption of play must also comply with the golf car policy. Players must be given a enough to time to return to their playing positions before play is to resume.
- All practice facilities will be closed during inclement weather. Players returning to the course will not be permitted to practice before resuming play. Players who have not started their round are subject to the same protocols provided in the “Practice Facilities” section of this document.

LOCAL RULES

- Golf House Kentucky will provide updated information and clarifications concerning suggested modifications to the USGA Rules of Golf affected by CDC guidelines and governmental regulations.
- As these changes occur and when they affect any of the tournament events or championships, the changes will be added to the Conditions of Competition.
- Currently flagsticks, bunkers and bunker rakes, scorecards, scoring and holing out are addressed by the USGA. These rule related items have also been identified as modifications by Golf House Kentucky in the Tournament Operations Protocol Guidelines.

TOURNAMENT STAFF

- The Tournament Staff will provide a responsible effort to ensure execution of all protocols while at all tournament sites and environments.
- All tournament staff members must wear protective equipment while on property at a sanctioned event, as outlined in the COVID-19 tournament protocols.
- Masks are required for use when in the presence of other persons or when handling items others may come in contact with during their tournament experience. The wearing of gloves is required when handling materials that other persons may be handling as well.
- The Official in Charge will assign individuals to place signage for directional needs, CDC signage, time clocks, branded items, and starting and scoring tents and tables.
- Starters and scorers must use their best judgment when complying with social distancing and the need for verbal interaction with the players and others.
- All individuals must maintain recommended social distancing when assisting players with ball searches, directional messaging and all other possible interaction points.
- Rules Officials must maintain recommended social distancing when assisting players with rules assistance. They must not assist the players with any situation where the official would deliberately need to touch either personal equipment of the player or golf course equipment.

SPECTATORS

- Spectators are restricted from all areas of the golf course during the scheduled time of the event.
 - The events include:
 - KGA tournaments and championships
 - KPGA tournaments and championships
 - USGA qualifying rounds
- The KYPGA Junior Tour has established an alternate spectator policy. Please review that policy prior to attending a KYPGA Junior Tour event.

HOST FACILITY CORRESPONDENCE

Golf House Kentucky will work with the Host Facility to offer the following guidelines for the 2020 season. This is in effort to be responsible in conducting our tournament programming for participants. The guidelines are consistent with CDC and State Health Organization's protocols for social distancing. We realize some of these policies may be different than your daily operational procedures during the COVID-19 pandemic, however, these protocols have been approved by the Tournament Committees and Boards within the Golf House Kentucky family. We respectfully ask for your cooperation as we work together to ensure we are responsible in our administration of our tournaments.

Guidelines:

- The clubhouse must be open and follow the sanitation requirements put forth by the C.D.C and Kentucky State Health Organization (Phase 2).
- Restrooms must be open and available to players and tournament staff and must follow the sanitation requirements put forth by the CDC and State Health Organization.
- Host facilities must provide PPE to staff members that may come in contact with individuals or handle items that others may come in contact with during their time on property.
- There should be no handling of any participant's equipment by either the tournament staff or host facility staff.
- All golf cars must follow the sanitation requirements put forth by the CDC and State Health Organization.
- An appropriate number of golf cars should be available for tournament participants on a single rider basis, as well as golf car availability for tournament staff.
- All flags on the practice green must be removed by the host facility, if not removed already.
- An appropriate supply of practice balls should be provided per player and must be cleaned and left in the hitting area for use. Players should not have to reach into a common area to acquire practice balls.
- All practice balls must be cleaned before each use by the host facility.
- Devices used to clear balls from the short game area should be removed, if not already removed.
- All practice balls around the practice green must be removed by the host facility, if not removed already.
 - If possible, please remove all flagsticks the night prior to the event to avoid points of contact by tournament staff. Cup liners must be placed in accordance with USGA Rules of Golf.
 - During the play of a hole, a player must not remove the flagstick from the hole. Penalty for first violation: 1 stroke; Penalty for second violation: General penalty; Penalty for third violation: Disqualification. The flagstick has been removed from the hole when it is lifted by a player, his or her partner, or caddy, or any other person at the request of the player by any method resulting in the bottom of the flagstick no longer being in contact with the socket of the hole liner. A player may reposition the flagstick without removing it from the hole by touching it with a towel or club.
 - All bunker rakes must be removed from the course by the Host Facility, if not removed already.
 - Non-essential, removable items (benches, ball washers, etc.) must be removed from the course and practice areas, if not removed already.
 - Food provided as a component of the event will be coordinated in advance between GHK and the facility. Since food is not offered through the event, the facility may offer food per CDC and Kentucky State Health Department guidelines.

AMENDMENTS FOR HIGH SCHOOL / MIDDLE SCHOOL COMPETITIONS

The following amendments are recommendations specific to high school and middle school team competitions only. COVID-19 Tournament Protocols are in effect for all match and invitational competitions except as noted below. Ultimately, KHSAA is the governing body for high school athletic sports and will outline and identify conditions and rules of competition.

- Tee times may consist of an entire 5-player team. The coach will accompany the team, maintaining social distance, and keep score for each player. The coach will attest the scorecard for all players and return the card to the scoring area upon completion of play.
 - Teams have commuted to the event together and would not be paired with players from other regions of the state. Collegiate events are strongly considering this pairing option for their events this fall.
 - If the team competes together, tee times intervals should be at a minimum of 12 minutes.
- Tournament notices, including Rules of Play, starting assignments, etc., should be emailed to coaches in advance of the event. Coaches should provide copies of tournament notices to players prior to the start of play.
 - Scorecards will be distributed to the coaches once on site, for distribution to the players. Scorecards will be given to the player keeping score to reduce the need for exchanging of cards. For example, if player A is keeping score for player B, the coach of player A will give player A the scorecard for player B prior to starting the round.
- It is recommended ties be recognized as ties and not played off for final placings, including ties for first place (team and medal play). This will eliminate the potential for congregation of people and large numbers playing / following any playoff. If a tie must be broken, it is recommended to follow the USGA Rules of Golf recommendation for breaking ties.

FREQUENTLY ASKED QUESTIONS

- Are double riders in a golf car allowed?
 - We have received indirect communication from the Governor's Office that players may ride 2 persons to a golf car under the following restrictions:
 - If both individuals reside in the same household, they may ride in the same golf car without wearing facial covering
 - If both individuals do not reside in the same household, they may ride together in the same golf car, but **MUST** wear facial covering while in the golf car. The driver must also remain the driver throughout the entire round.
 - For any event conducted by Golf House Kentucky staff, we will continue to utilize the single rider requirement for golf cars.
- Are shotgun starts permitted?
 - Shotgun starts are not recommended at this time. If shotguns take place, there are extensive restrictions around social distancing requirements, golf car staging, practice tee space allocations, points of congregation, and field limitations. Please refer to executive orders issued by the Governor on social distancing and congregation of people.
- Are double tee starts permitted?
 - Double tee starts may be permitted under social distancing and state issued guidelines. Please refer to those guidelines to ensure compliance if you are considering a double tee start.
- The Back2Golf document outlines something different than what your protocols allow. Why is there a discrepancy?
 - The Back2Golf document clearly states that local Government and Health agency policies take precedent over any guidance provided in the Back2Golf document. The Back2Golf document outlines suggestions and recommendations for a responsible return to golf, while under the requirements of local restrictions. Our protocols are developed utilizing the Back2Golf guidelines in the parameters outlined through Governor orders and health agencies in Kentucky.
